KONOIN TECHNICAL TRAINING INSTITUTE

2ND GRADUATION CEREMONY

NOVEMBER 14TH 2025

National Anthem

O God of all creation,
Bless this our land and nation,
Justice be our shield and defender,
May we dwell in unity,
Peace and liberty,
Plenty be found within our borders.

Ee Mungu nguvu yetu Ilete baraka kwetu Haki iwe ngao na mlinzi Natukae na undugu Amani na uhuru Raha tupate na ustawi.

Let one and all arise With hearts both strong and true Service be our earnest endeavour And our home-land of Kenya Heritage and splendour Firm may we stand to defend.

Amkeni ndugu zetu Tufanye sote bidii Nasi tujitoe kwa nguvu Nchi yetu ya Kenya Tunayoipenda Tuwe tayari kuilinda

Let all with one accord In common bond united Build this our nation together And the glory of Kenya The fruit of our labour Fill every heart with thanksgiving.

Natujenge taifa letu Eeh, ndio wajibu wetu Kenya istahili heshima Tuungane mikono Pamoja kazini Kila siku tuwe na shukrani

EAC Anthem

1. Ee Mungu twaomba ulinde
Jumuiya Afrika Mashariki
Tuwezeshe kuishi kwa amani
Tutimize na malengo yetu.

Chorus

Jumuiya Yetu sote tuilinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu.

2. Uzalendo pia mshikamano
Viwe msingi wa Umoja wetu
Natulinde Uhuru na Amani
Mila zetu na desturi zetu.

3. Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tuijenge Jumuiya bora.

Technology for Development

Teknolojia kwa Maendeleo

MISSION

"To provide relevant technical education and training to support student goals, a skilled workforce, and the economic vitality of our communities."

VISION

To be a catalyst in engaging partners to bring innovative educational solutions to individuals, employers, and communities – transforming challenges into opportunities.

CORE VALUES

- Integrity
- Collaborative partnerships
- Innovative
- Continuous Improvement
- Customer Focus
- Diversity
- Sustainability

THEME

"Technology, Innovation, Skills, and Excellence for Sustainable Development."

Speech by the Cabinet Secretary for Education, Hon. Julius Migos Ogamba During the 2nd Graduation Ceremony at Konoin Technical Training Institute

It gives me great joy to join you today as we celebrate the achievements of the Class of 2025 of Konoin Technical Training Institute. This is a moment of pride, reflection, and fulfillment a testament to hard work, resilience and shared commitment to building a skilled and empowered nation. I extend my heartfelt congratulations to all graduates, trainers and parents whose dedication has made this day possible.

The Government of Kenya continues to place Technical and Vocational Education and Training (TVET) at the core of national transformation. TVET is not an alternative route it is the engine that drives innovation, productivity, and sustainable employment. Our collective mission is to build a globally competitive nation anchored on technical excellence and a workforce equipped to deliver Kenya's development priorities.

Through the Ministry of Education, we have implemented wide-ranging reforms to enhance access, quality and relevance in training. The Competency-Based Education and Training (CBET) model ensures that learning directly responds to the needs of industry and the realities of the job market. Additionally, we have invested in modern workshops, digital learning tools and trainer development programs to ensure our graduates are prepared for the evolving world of work.

Further the government has strengthened collaboration with the private sector and development partners to promote dual training, apprenticeships and innovation hubs that connect learning with employment opportunities. Moreover through close partnerships with county governments, we are expanding equitable access to quality TVET and aligning training with local economic priorities such as agriculture, construction, and green energy.

Konoin Technical Training Institute exemplifies these values. Its growth reflects the government's vision of institutions that nurture innovation, foster community transformation and create pathways for youth to thrive. Konoin has demonstrated that localized training can power national change equipping young people to turn ideas into enterprise and skills into sustainable livelihoods.

To our graduates your skills are your greatest capital. Uphold integrity, think creatively, and continue learning. Kenya's future depends on your capacity to innovate and to lead with courage and purpose.

Congratulations to the Class of 2025. Go forth with confidence, serve with excellence and keep shaping the Kenya we aspire to build.

Thank you and may God bless you all.

Speech By Dr. Esther Thaaria Muoria - Principal Secretary, State Department For TVET During the 2nd Graduation Ceremony Of Konoin Technical Training Institute

It gives me great honour to witness the Second Graduation Ceremony of Konoin Technical Training Institute, a milestone that demonstrates the transformative power of technical and vocational education. This ceremony celebrates graduates whose determination, discipline and perseverance, supported by mentors, families and the institution have prepared them to make meaningful contributions to society and the economy. Beyond individual achievement, it reflects the transformation of potential into practical skill, knowledge into capability and aspiration into tangible impact. Each graduate is the outcome of a learning environment that combines hands-on training, theoretical understanding and character development.

One of our priorities as the State Department for TVET is to ensure that technical and vocational training remains relevant, practical and responsive to industry and national development needs. We are strengthening linkages with employers, industry partners and communities to ensure that graduates acquire skills that enhance employability, foster innovation and promote self-reliance. The Competency-Based Education and Training (CBET) curriculum has been instrumental in bridging the gap between training and employment by providing students with industry-aligned skills and practical experience through apprenticeships, dual training programmes, joint curriculum development and industrial attachments.

The Class of 2025 has acquired competencies that are highly relevant across sectors, including agriculture, energy, ICT, manufacturing, construction and hospitality. These skills empower graduates to innovate, lead and create meaningful impact within their communities while contributing to national development. This TTI continues to cultivate graduates who are not only technically proficient but also ethically responsible, capable of driving economic growth and transforming society through their expertise, initiative and commitment.

Konoin occupies a distinctive role in Bomet County and beyond, preparing graduates to harness local opportunities, develop sustainable solutions and contribute to economic growth. The Second Graduation Ceremony celebrates the achievements of the graduates and the institution, marking readiness to pursue opportunities, drive innovation and continue contributing to national development with skill, integrity and confidence.

Thank you and God bless you!

Dr. Esther Thaara Muoria, PhD, CBS
Principal Secretary, State Department for Technical and Vocational Education and Training

Message From Mr. Hillary Kirui, Chairman, Board Of Governors, Konoin Technical Training Institute

It is a great honor and privilege to stand before you today on this special occasion of the Konoin Technical Training Institute Graduation Ceremony. We gather to celebrate the hard work, dedication, and success of our graduating trainees, and to reflect on the incredible journey our institution has made since its establishment in 2017.

From humble beginnings — with few trainees, limited staff, and minimal facilities — Konoin TTI has grown into a vibrant center of technical excellence. This transformation has been made possible through the support of the Government of Kenya, particularly the Ministry of Education and the State Department for TVET, whose funding and guidance have enabled infrastructure growth, instructor training, and the successful implementation of the Competency-Based Education and Training (CBET) curriculum.

I am pleased to note that the Government of Kenya, through the Ministry of Education, recently granted the institution Ksh. 10 million to support infrastructure development. This generous allocation will go a long way in improving our training facilities, expanding classrooms and workshops, and enhancing the overall learning environment. Such investments are not only a testament to the government's confidence in the institution's potential but also a great motivation for us to continue striving toward excellence in technical training.

On behalf of the Board of Governors, staff, and trainees, I wish to sincerely thank the government for this timely support that will significantly boost our capacity to deliver quality technical education.

We also extend heartfelt appreciation to our local community. You have been our true partners — offering land, security, and moral support, and encouraging young people to pursue technical training. This collaboration has made Konoin TTI not just an institution, but a family and a source of pride for Konoin and beyond.

Our journey, however, continues. As a Board of Governors, we acknowledge challenges such as limited space, staffing gaps, and the need for more workshops and industrial linkages. Yet, these challenges inspire us to work even harder. We are actively seeking partnerships with industries and other technical institutions to expand opportunities for our trainees and promote innovation.

In line with our slogan — “Technology for Development” — we are embracing emerging technologies, including AI-powered tools, to prepare learners for the modern workplace. The future belongs to those who can adapt and innovate, and we want Konoin TTI to be at the forefront of this transformation.

As a Board, we also appeal for support in securing additional agricultural and expansion land, the relocation of the neighboring primary school to allow room for growth, and the deployment of more trainers to meet rising enrolment and maintain quality training. These initiatives, combined with the ongoing infrastructure projects, will position Konoin TTI as a leading institution in technical and vocational training within the region and beyond.

To the graduating class, this is your moment. You have gained the knowledge and skills to shape your future — but it is your discipline, integrity, and resilience that will define your success. Go out there and be ambassadors of Konoin TTI, applying your training to build a better Kenya.

To the parents, guardians, trainers, and staff, thank you for your dedication and sacrifices. Your efforts have made today possible and continue to strengthen the foundation of this institution.
As the Board of Governors, we reaffirm our unwavering commitment to continue supporting the growth of this institution — to ensure it remains a model of excellence, innovation, and transformation through skills training.

Congratulations to the graduating class of 2025. May your journey ahead be guided by purpose, innovation, and the spirit of lifelong learning.

Thank you, and may God bless you all.

Speech Of The Chief Principal, Mr. Wesley Sigei During The 2nd Graduation Ceremony At Konoin Technical Training Institute.

It is a great honour to stand before you today as we celebrate the achievements of our graduating class of 2025 and reflect on the remarkable journey of Konoin Technical Training Institute. Since our establishment in 2017, we have grown from humble beginnings into an institution that is shaping lives, building skills, and transforming our community.

Over the years, we have achieved significant milestones that reflect steady growth, resilience, and progress:

- Our student population has expanded tremendously, and we are now proud to have over 2,500 trainees enrolled, steadily moving toward our target of 5,000. This growth demonstrates the increasing trust from parents and the community, and the strong belief in the role of technical and vocational education in driving national development.
- We have a fully equipped processing plant, designed to produce dairy products such as yoghurt and ice cream, as well as fruit-based products like juices. The plant is intended to provide invaluable practical learning opportunities for our Applied Sciences trainees, preparing them to meet industry standards and gain hands-on experience in a real production environment. However, production has not yet commenced due to the lack of a reliable water supply system, as we currently rely on rainwater, which is unsuitable for production. Frequent power outages have also posed challenges to the operational readiness of the plant.

- We are actively exploring long-term solutions, including improved water storage systems, to ensure that once operational, the plant can run efficiently and provide maximum practical value to our trainees.
- A significant milestone in addressing our energy challenges has been the installation of a 10kVA solar power system, which is now fully operational. This solar system powers key institutional functions, including our servers, administrative offices, and critical equipment, ensuring continuity despite frequent power outages. The installation of this solar system marks an important step towards energy independence, sustainability, and uninterrupted learning, and it positions the institution to fully utilize the processing plant once water access challenges are resolved.
- We have also built a productive partnership with Browns Company, a collaboration that has opened new doors for our trainees. Through this partnership, several of our graduates have secured employment and industrial attachments within the company, providing them with practical experience and exposure to industry standards. This partnership reflects our commitment to bridging the gap between training and real-world employment. In addition, the Finlays Community Trust, supported by Browns Company, has been a generous supporter of our trainees. The Trust sponsors 20 trainees each financial year for two consecutive years, ensuring that deserving students receive the opportunity to acquire skills and knowledge that will transform their futures. This initiative demonstrates the value of corporate social responsibility and the importance of investing in youth development.

- The Jitume Digital Lab remains another point of pride. With over 50 fully functional computers and an additional 50 expected soon from the government, it serves both our trainees and the wider community. The lab provides digital literacy training, access to online work platforms, and exposure to global digital opportunities. It has become a hub of creativity, innovation, and empowerment — a true example of how technology can bridge gaps and transform lives. The addition of the new computers will significantly expand access, allowing more trainees and community members to benefit from digital skills training, fostering greater innovation, enhancing learning opportunities, and strengthening the institution's role as a center for technology and empowerment in the region.
- The surrounding community has shown remarkable support by donating 14 additional acres of land to facilitate the expansion of Konoin Technical Training Institute. This generous contribution will allow us to develop more training facilities, workshops, and learning spaces, accommodating a growing student population and enhancing practical training opportunities. This expansion brings us closer to achieving recognition as a National Polytechnic and strengthens the partnership between the institution and the community that nurtures it.
- Our impact is not only local but also global. One of our graduates from the Building Technology department has successfully secured employment in Dubai, contributing to Kenya's labour mobility agenda. Their success reflects the quality of training offered at Konoin TTI and the competitiveness of our graduates in the international job market.
- The full implementation of the Competency-Based Education and Training (CBET) modular curriculum has transformed our approach to training.

- This curriculum emphasizes practical, measurable competencies, ensuring that every trainee gains the skills, knowledge, and attitude needed to thrive in the modern workplace. Trainers and assessors have fully embraced this system and are continually being capacity-built to deliver according to the new curriculum. The results are visible in the confidence and competence of our trainees.
- To create an environment that mirrors our growing reputation, we have embarked on a facelifting project across the institution. This includes painting walls, renovating the main gate, and improving landscaping to enhance overall aesthetic appeal. The transformation has given our institution a fresh, welcoming, and professional outlook, fostering pride and a sense of belonging among staff and trainees.
- Our achievements extend beyond academics. Our women's volleyball team made history by qualifying for the national competitions in Mombasa, a great honour for our institution. Additionally, our innovation team qualified for the national level in the TVET Fairs, securing first position, showcasing the creativity and technical prowess of our innovators. These successes remind us that technical training is not just about skills, but also about building confidence, teamwork, and excellence in all areas of life.
- We also take pride in our growing alumni community, whose members continue to give back through mentorship, facilitating industrial attachments, and providing employment opportunities to current trainees. The Alumni Association has already been formally established to strengthen collaboration and maintain enduring connections between the institution and its graduates. I urge the graduating class of 2025 to actively engage with the association and contribute to inspiring and guiding future cohorts of trainees.

- As we continue to grow, we remain committed to registering trainees under the Recognition of Prior Learning (RPL) initiative, ensuring that skilled individuals without formal training can be assessed, recognized, and certified for their competencies. This inclusivity gives value to all forms of work and ensures that no skill goes unnoticed.

The journey of developing Konoin Technical Training Institute continues — from improving infrastructure and expanding programs to strengthening community ties and partnerships. Our vision remains clear: to transition fully into a model institution known for quality, innovation, and community impact.

None of these achievements would have been possible without the steadfast support of our valued stakeholders. I wish to express my sincere gratitude to the Government of Kenya, through the Ministry of Education, TVETA, and CDACC, for their continued guidance and unwavering support. I also extend heartfelt appreciation to the County Government of Bomet, Browns Company, Finlays Community Trust, our Board of Governors, and the dedicated staff of Konoin TTI, whose tireless efforts and commitment have been instrumental in building and advancing this institution. To our parents and guardians, thank you for trusting us with your children and supporting them throughout their training journey. To the community, your generosity and collaboration remain invaluable to our progress.

And to our graduates, congratulations on this milestone. You have made us proud — go forth with confidence, discipline, and creativity, knowing that the skills you possess are tools for transformation wherever you go.

As we look to the future, we are confident that Konoin Technical Training Institute will continue to grow into a strong, vibrant, and self-sustaining institution — one that not only produces competent graduates but also contributes meaningfully to Kenya's social and economic development.

Thank you.
Congratulations to the graduating class of 2025, and may God bless you all.

God bless Konoin Technical Training Institute.
